

# CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Est. Installation Time: less than 15 min.

The Cabin Air Filter is located behind the glove box.

1. Remove the glovebox held in by three clips at the bottom along with a damper cord that you have to pull off to the left then lift the glovebox out.
2. Drop the panel that is below the globe box.
3. Remove the side panel.
4. Remove the seven screws that hold full glove compartment and remove the compartment.
5. Remove the cabin air filter cover.
6. Replace the cabin air filter and reverse steps 5-1.

This is only a guide and may not be for exact model. See Owner's manual and/or local Technician for exact instructions for the particular model.
