

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: PC4103X

Est. Installation Time: less than 15 mins

Mazda OE: KD45-61-J6X, KD4561J6XMV

The Cabin air filter is located behind the glove compartment

- Open the glove box
- Locate the dampener arm on the right side of the glove box
- Unhook the dampener arm simply by pulling it
- Push in on the sides of the glove box to clear the stops and lower it towards the floor
- Unclip the cabin filter access door
- Remove the old filter from assembly, taking note the air flow arrow indicator on the side of the old filter
- Insert new filter into the assembly, making sure the air flow direction is correct according to the arrow indicator
- Replace the rest of the glove box assembly by reversing the removal procedure
