

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: **PC4270X**

Est. Installation Time: **less than 10 min.**

Hyundai Elantra (2009-2012) L4 2.0L

The Cabin air filter is located on the passenger side of the vehicle behind the glove box

1. Open the glove box
2. Allow the glove box to swing down and hang by its hinges.
3. Unclip the damper rod from the right side of the glove box.
4. Remove the two stops on either side of the glove box by pushing them from the outside.
5. Locate the filter housing cover
6. Unclip the right side of the housing cover to remove it
7. Remove the old filter from the housing, taking note of the air flow arrow indicator on the side of the old filter
8. Insert the new filter into the assembly, making sure the air flow direction is correct according to the arrow indicator
9. Replace the rest of the glove box assembly by reversing the removal procedure
