

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: PC4476X

Est. Installation Time: less than 20 mins

Acura OE: 79370-SP0-H01

The Cabin air filter is located behind the glove compartment

- Disconnect and isolate the battery ground cable. After this wait 3-5 minute to allow the air bag system power capacitor to discharge.
- Disengage the stops from the sides of the glove box compartment.
- Remove the bolts and screws that secure the glove box compartment to the dash panel.
- **{Fig 1}** If it is the first time when you change this filter you need to cut the plastic cross brace located at the glove compartment - discard the plastic brace.
- **{Fig 2}** Remove the cabin air filter housing cover.
- Remove the old cabin air filter.
- Install new cabin air filter.
- Install all components back in place.
- Install the glove box compartment.
