

# CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: **PC5387**

Est. Installation Time: **less than 20 mins**

**Ford OE: XS4Z-19N619-CA, XS4Z-16N619-AA**

The Cabin air filter is located in front of the windshield under the cowl vent screen behind the filter service flap

- Open the hood
- Unclip the three fasteners that secure the forward edge of the passenger-side cowl
- Remove the passenger side section of cowl
- Lift the cowl to release the clips from the holes
- Remove the old cabin air filter, taking note the air flow arrow indicator on the side of the old filter
- Insert the new filter into the assembly, making sure the air flow direction is correct
- Return the cowl to its original position. Make sure that the two clips on the underside snap securely into the holes in the metal frame of the vehicle
- Replace the rest of the glove box assembly by reversing the removal procedure

This is only a guide and may not be for exact model. See Owner's manual and/or local mechanic for exact instructions for the particular model.
