

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

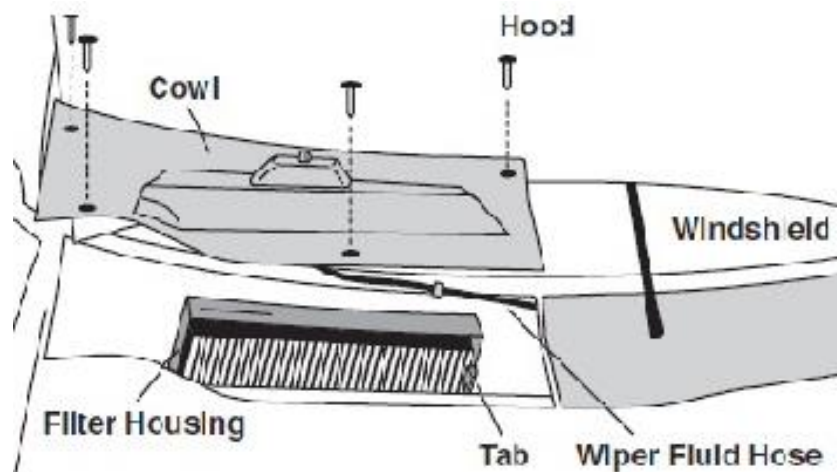

Part No.: PC5490X

Est. Installation Time: less than 15 min

Gm OE: 22665802

The Cabin air filter is in front of the windshield under the cowl vent screen on the passenger side of the vehicle

- Remove the rivet by prying out the middle of the rivet while pushing down on the outer rim with your finger. Pull out the rivet when center is pulled up
- Remove the remaining rivets
- Remove the bot by turning it counter clock wise
- Remove the panel covering the cabin air filter by pulling it
- Slide the old cabin air filter out of the housing taking note the air flow arrow indicator on the side of the old filter
- Insert the new filter into the housing, making sure it is seated and secure in the housing properly and that the air flow direction is correct according to the arrow indicator
- Replace the rest of the assembly by reversing the removal procedure

This is only a guide and may not be for exact model. See Owner's manual and/or local mechanic for exact instructions for the particular model.
