

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: **PC5532X**

Est. Installation Time: **less than 20 min.**

BMW 7 Series (2002-10)

OEM No. 64116921019

The cabin air filters are located under the hood in the cowl- 2 filters, one on the passenger side and one on the driver side

1. Open the hood
2. Start with the driver side and locate the filter housing cover.
3. Using a flat screwdriver unclip the metal clamp securing the housing-cover – see below.
4. Unclip the plastic latchet on the fender side. And remove the housing cover.
5. The filter is attached to the housing cover. Remove the old filter and clean the housing.
6. Insert the new filter and secure it into the cover. Ensure the two tabs on the filter are in the proper orientation
7. Reinstall the housing cover, and make sure it is fitted into the receiving duct.
8. Clip the latchet and fasten the retaining clamp.
9. Repeat the same process to replace the 2nd cabin filter on the passenger side
