

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: **PC5549X**

Est. Installation Time: **less than 15 min**

Lexus – ES300 (02-03), GX470 (03-09), RX330 (04-06)

The cabin air filter is located on the passenger side of the vehicle behind the glove box

- Open the glove box.
- Locate retainer arm on the bottom right of the glove box and disengage it. Once the arm is disengaged the glove box should swing down on its bottom hinge
- Push on the two tabs on the filter access door and slide the cabin air filter frame.
- Remove the old filter from the housing, taking note the air flow arrow indicator on the side of the old filter.
- Insert the new filter in the frame, making sure it is seated and secure in the frame properly and the air flow direction is correct according to the arrow indicator.
- Reinsert the frame assembly into the filter housing. Make sure the filter frame latches securely on both sides.
- Replace the rest of the glove box assembly by reversing the removal procedure

This is only a guide and may not be for exact model. See Owner's manual and/or local mechanic for exact instructions for the particular model.
