

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: **PC5551X**

Est. Installation Time: **less than 20 min.**

Mercedes SL Series (2004-14)

OE No 230 830 04 18

The cabin air filter is located behind the instrument panel below the glove box.

1. Remove the instrument below the glove box. It is secured with a three screws. Use Phillips screwdriver to remove them
2. Locate filter housing covers – 2 units..
3. Each one of the housing covers is secured with two locking tabs. Slid the tabs toward the center (opposing directions), and pull the cover down
4. Remove old cabin air filter by pulling it downward . Remove both filters
5. Insert up the new filter, There is only one position that it will fit in
6. Lock the housing cover – reverse step 3
7. Install back the panel and secure it with the 3 screws
