

# CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: PC5676X

Est. Installation Time: less than 15 min.

GM OE: 52493319

1. The Cabin Air Filter is located behind the glove box
2. Open the glove box and press inward on the sides of the box to release the stoppers – Fig. 2.
3. Swing the glove box down and release the dampener cord for the right side of the box
4. Allow the glove box to hang down to expose the filter housing access door
5. Release the three latches on the upper edge of the housing door – Fig. 2.
6. Pull the old filter out.
7. Insert the new filter into the housing with the air flow arrows pointing down
8. Close the filter housing door and snap the 3 latches back
9. Re-clip the dampener cord to the right side of the glove box
10. Close the glove box, press inward on the sides to re-engage the stoppers.
