

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: PC5838X

Est. Installation Time: less than 30 min.

OEM No. 9179905

The cabin air filter is located under the cowl cover panel, on the passenger side.

1. Turn the wiper blades to the upright position
2. Remove the plastic rivet securing the cover to the fender (1). Using screw driver, push down the center of the rivet to release it. Prey the rivet out
3. Remove the weather-strip half way to the center (2)
4. Hold down the lateral edge of the rectangular foam bumper (3) and lift up the cowl cover. Carefully lift the plastic cover. Be careful not to damage the black foam
5. The filter is secure with two plastic latches on the upper right and left corners. Unclip the latches – Fig 2
6. Remove the old filter and clean the housing
7. Install the new filter with the air flow arrows pointing to the rear of the vehicle. Secure the filter with both latches
8. Revers steps 2-1 to conclude the installation
