

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: **PC5840X**

Est. Installation Time: **less than 15 mins**

Land Rover OE: LR056138, LR039612; Volvo OE:31366124, 31449209

The cabin air filter is located on the passenger side of the vehicle behind the glove box

- Open the glove box
- Remove the two screws securing the panel below the glove box
Using the T-25 Torx wrench
- Remove the panel below the glove box from the vehicle by gently pulling the panel down until the clip is detached
- Remove the wire harness attached to this panel.
- Remove the side kick panel on the passenger side of the center console by gently pulling it loose from the console
- Unlatch the cabin filter door and remove
- Remove the old filter from the tray, taking note the air flow arrow indicator on the side of the old filter
- Insert the new filter into the tray, making sure it is seated and secure in the tray properly and the air flow direction is correct according to the arrow indicator
- Reinsert the new filter and tray assembly into the filter housing. Replace the rest of the glove box assembly by reversing the removal procedure
