

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: **PC5853X**

Est. Installation Time: **less than 15 min**

SUZUKI – Grand Vitara 2.4L (09-16), V6 2.7L (06-08), V6 3.2L (09-10)

The Cabin air filter is under the dash on the passenger side of the vehicle behind the glove box

- Unlatch and open hood. Disconnect the negative (-) cable at the battery.
- While sitting in the passenger seat, open the glove box.
- To lower the glove box, push in on both side panels to clear the glove box stops.
- Let the glove box swing all the way downward.
- Now with the filter housing access door exposed, unfasten the locking clasp which is securing the filter housing access door.
- Remove the door.
- Remove the old cabin filter by pulling straight out.
- Install new cabin filter.
- Set the filter housing access door back into its original position and lock clasp.
- Bring the glove box back into position by pressing in on both sides until the glove box stops re-engage.
- Close glove box.
- Re-connect negative (-) cable at the battery.
- Close hood.
