

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: PC6205X

Est. Installation Time: less than 15 mins

GM OE: 20958479

The Cabin air filter is located behind the glove compartment

- Open the glove box
- Unclip the dampener arm from the right side of the glove box (Fig 1)
- Remove the two stops, lift the glove box up and turn counter-clockwise and allow the glove box to hang freely on the hinges (Fig 2)
- Lift the tabs together and pull out the cabin air filter tray (Fig 3)
- Remove the old cabin air filter, taking note the air flow arrow indicator on the side of the old filter
- Insert the new filter into the assembly, making sure the air flow direction is correct according to the arrow indicator
- Replace the rest of the glove box assembly by reversing the removal procedure
