

CABIN AIR FILTER – INSTALLATION INSTRUCTIONS

Part No.: **PC99252X**

Est. Installation Time: **less than 15 min**

Kia Spectra (02-04)

The cabin air filter is located on the passenger side of the vehicle behind the glove box

- Open the glove box.
- Locate retainer clips on the bottom right found on each side of the glove box and release it. Once the arm is disengaged the glove box should swing down on its bottom hinge
- Push on the two tabs on the filter access door and slide the cabin air filter frame.
- Pull on the handle and slide out the top filter
- The top filter has to be completely removed before the second filter at the bottom can be accessed.
- Grab the handle at the bottom filter, lift entire filter up, and then slide it outwards to remove
- Remove the old filter from the housing, taking note the air flow arrow indicator on the side of the old filter.
- Insert the new filter in the frame, making sure it is seated and secure in the frame properly and the air flow direction is correct according to the arrow indicator.
- Reinsert the frame assembly into the filter housing. Make sure the filter frame latches securely on both sides.
- Replace the rest of the glove box assembly by reversing the removal procedure

This is only a guide and may not be for exact model. See Owner's manual and/or local mechanic for exact instructions for the particular model.
